V2

If I leave your shadow
You will leave the 99
And throw me on your shoulder
No matter how hard I fight

You hold on to me
when I'm at the end of my rope
You hold on to me
When I'm ready to let go

BRG

You put the cross in the ground **Am** **C**
And won't let me get around what you've done **G** **C**
You keep standing in the way
Between me and the grave with your love

V3

If I get caught up in the tide
Your anchor always holds
There's no depth there's no height
That you would let me go
